Notes: The analysis data set includes 20,792 projects and 1,539,619 units placed in service between 1995 and 2009. The average number of units per property and the distribution of property size are both calculated based on the 20,571 properties with a known number of units and not on the full universe of 20,792 properties. The database contains missing data for number of units (1.1%), qualifying ratio (percentage of tax credit units) (3.2%), and bedroom count (11.0%). Totals may not sum to 100 percent because of rounding.
