<b>Changes Between RHFS 2012 National PUF 2.0 and PUF 2.1</b>		
<b>Item</b>	<b>Type of Change</b>	<b>Impact on Data Analysis</b>
NOTSUBSDZ and DKSUBSDZ	<p>There were a handful of inconsistent values combinations on question 22. Question 22 is a “mark all that apply” format. It includes No and Do Not Know as options. The issues were:</p> <ul style="list-style-type: none"> <li>--3 cases have values of 1 for Don’t Know while having a value of 1 for at least one of the other legitimate program options (1 through 9).</li> <li>--2 cases have values of 1 for “No, Not Subsidized” while having at least one of the other legitimate program options (1 through 9).</li> <li>--8 cases have values of 1 for both “Don’t Know” and “No, Not Subsidized.”</li> </ul> <p>In instances where one of the above conditions was found, the following edits were made:</p> <p>If an “X” marked in options 1 through 9, then NOTSUBSDZ and DKSUBSDZ were edited to be blank.</p> <p>If an “X” marked in NOTSUBSDZ, then DKSUBSDZ was edited to be blank.</p>	Minimal. This only impacted 9 cases in the national PUF
