## American Housing Survey Factsheets

Issued July 2013 AHS/11-10

**OUR HOMES** Owning or renting your own place is ARE MORE THAN a milestone for many. Our homes may WHERE WE LIVE be investments, or sometimes financial burdens. Whether it's a gathering place

for friends and family or a sanctuary where you relax, our homes are important. That is why the American Housing Survey (AHS) is a valuable survey, allowing us to learn more about the types of homes in which we live and the size and composition of the housing inventory.

### WHO RENTS OR PAYS A MORTGAGE?

<sup>1</sup> Regular mortgages include all mortgages not classified as home-equity credit lines or reverse annuity mortgages.

#### WHAT IS THE AHS?

The AHS is the most comprehensive housing survey in the United States. The same units have been interviewed since 1985, with new construction, demolitions, and conversions taken into account. National data are collected every other year and metropolitan area data are collected on a rotating basis.

People in nearly every field use information from the AHS to evaluate and study the physical and financial characteristics of the nation's housing stock. In addition to the indicators presented in Tables 1 and 2, the AHS provides data on multi-family and singlefamily homes, manufactured/mobile homes, equipment and appliances, characteristics of the occupants, and more.
