I.	BOOKS.....	p. 1-5
II.	PAMPHLETS.....	p. 6-25
III.	PERIODICALS.....	p. 26-56
IV.	CONGRESSIONAL HEARINGS.....	p. 57-59
V.	BIBLIOGRAPHIES.....	p. 60

This bibliography is arranged alphabetically under the above headings. The references in general pertain to literature from 1933, when the public housing program was inaugurated, through the second quarter of 1951, although a few earlier references are included. Some material is listed which does not deal directly with housing but which may be found useful in a consideration of the racial factors involved.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that proper record-keeping is essential for the integrity of the financial system and for the ability to detect and prevent fraud. The text notes that without reliable records, it would be difficult to track the flow of funds and identify any irregularities.

2. The second part of the document outlines the various methods used to collect and analyze data. It describes the use of statistical techniques to identify trends and patterns in the data. The text also discusses the importance of using multiple sources of information to cross-verify the data and ensure its accuracy. The document highlights the need for a systematic approach to data collection and analysis to ensure that the results are reliable and valid.

3. The third part of the document discusses the challenges of data collection and analysis. It notes that there are many factors that can affect the quality of the data, such as incomplete records, errors in data entry, and changes in the underlying data over time. The text also discusses the importance of having a clear understanding of the data and the methods used to collect and analyze it. The document emphasizes the need for a high level of transparency and accountability in the data collection and analysis process.

4. The fourth part of the document discusses the importance of having a clear understanding of the data and the methods used to collect and analyze it. It notes that the data should be clearly defined and the methods used to collect and analyze it should be clearly documented. The text also discusses the importance of having a clear understanding of the limitations of the data and the methods used to collect and analyze it. The document emphasizes the need for a high level of transparency and accountability in the data collection and analysis process.

5. The fifth part of the document discusses the importance of having a clear understanding of the data and the methods used to collect and analyze it. It notes that the data should be clearly defined and the methods used to collect and analyze it should be clearly documented. The text also discusses the importance of having a clear understanding of the limitations of the data and the methods used to collect and analyze it. The document emphasizes the need for a high level of transparency and accountability in the data collection and analysis process.
