
Tenants in LIHTC Units as of December 31, 2023

Vacancy Rate	
Vacant Units Reported	121,329
Total Units Reported	2,338,687
Vacancy Rate	5.19%

Note: 'Total Units Reported' excludes Nevada, which did not report any vacant units. Including Nevada's 9,404 units would not materially change the national vacancy rate.

**California and the U.S. Virgin Islands did not submit 2023 tenant data. Information for California was not reported due to migration to a new compliance reporting system. Mississippi submitted data for only 67 units. Mississippi's data are included only in Tables 1 and 2.*

HERA = Housing and Economic Recovery Act. LIHTC = low-income housing tax credit. PIS = LIHTC properties placed in service database.

Note: American Samoa placed 119 properties in service using the Tax Credit Exchange Program (TCAP), but otherwise does not actively administer LIHTCs and therefore is exempt from HERA requirements.

¹ The 2022 data are identical to those reported in Data on Tenants in LIHTC Units as of December 31, 2022, and do not include information on properties placed in service prior to 2022 that was reported with the 2023 PIS data collection.

² Information for California was not reported due to migration to a new compliance reporting system.
