FOREWORD

This bulletin lists the names and addresses of manufacturers having contracts with the FPFA Procurement division for Victory Model equipment supplied to war housing projects through mass purchase. This list is issued to assist field personnel in obtaining replacement parts for the above-mentioned equipment.

It is suggested that manufacturers' names and addresses be supplied to those projects at which replacement parts are ordered directly so that project personnel may contact those manufacturers whose equipment is in use on the particular project. Requisitions for maintenance items should not be sent to the FPFA Procurement Division at this time.

A number of the manufacturers are already out of business and others are retooling for the manufacture of items other than those supplied FPFA. Therefore, it is suggested that field personnel ascertain the ability of the several manufactures to supply repair parts, both now and in the future. Should information warrant, it would be advisable to obtain supply of necessary parts sufficient to last the probable life of the project.

All orders for replacement parts should be placed, when possible before the expiration of the present contract between a manufacturer and the FPFA Procurement Division.

The individual in the office of the manufacturer most familiar with the FPFA contract with that firm, is the individual listed, if known, in parenthesis under the manufacturer's address. When writing to a manufacturer, it is advisable to refer to the individual so named.

LIST OF MANUFACTURERS
OF EQUIPMENT USED ON
WAR HOUSING PROJECTS

INDEX
